</table>
WHO are our visitors travelling with?

Visitation by travel party type, three year average YE June 2016 – 2018

Just over three quarters of international visitors travelled alone or as part of an adult couple.

WHAT age are our visitors?

Visitation by age group, three year average YE June 2016 – 2018

Interstate visitors tended to be in the older demographic.
**WHAT transport did they use to get here and around?**

Visitation by transport, three year average YE June 2016 – 2018

- **89%** Intra-Territory
- **56%** Interstate
- **51%** International
- **7%** Aircraft
- **16%** Private vehicle or Rental car
- **6%** Motorhome or campervan
- **1%** Railway
- **1%** Bus/Coach
- **7%** Other Transport

The domestic leisure* drive market in focus

Almost a half of all visitors (49%) to the region over the last three years were self-drive leisure travellers, which was an average of 157,000 visitors per year.

**Domestic Source Markets**
As the Katherine Daly region’s proximity is close to Darwin, the domestic leisure drive market is largely made up of NT residents (58%).

**Length of Stay**
The region has a high percentage of short term visitations with 79% of domestic leisure drive visitors staying for three or less nights.

**Length of Stay - Domestic Drive Market**

*Leisure visitors are on a holiday and/or visiting friends and family*
HOW did internationals get here?

The majority of internationals entered the country through capital cities on the east coast, especially Sydney (32%) before making their way to Katherine. A quarter (24%) entered the NT directly via Darwin before travelling to the Katherine Daly region.

- Visiting national parks Credit: Shaana McNaught
- Fishing Credit: Peter Eve
- Experience Aboriginal Art/Craft and cultural display Credit: Shaana McNaught
- Bushwalking Credit: Shaana McNaught
Industry sector news

Katherine Attractions

Visitation to the National Parks in the Katherine region has been improving year on year since the year ending June 2016 with the exception of Leliyn which had similar levels of visitation as June 2017.

More information on the surveys:

Visitor number, night and spend estimates are derived from Tourism Research Australia’s (TRA) National and International Visitor Surveys (NVS and IVS). These surveys are based on sample rather than census, and as such, are subject to sampling variability. When using these estimates at the destination level, this variability increases. In order to provide more robust estimates for analysis, results provided in this report are based on the average of the past three twelve month periods – confidence intervals and sample for this period are highlighted in the table below.

Year ending (YE) June 16 – YE June 18

<table>

Where available, Tourism NT has provided information from other sources to be used in conjunction with the NVS and IVS estimates. It is recommended that other information sources are also used such as population statistics from the Australian Bureau of Statistics, feedback from local operators, information from local Visitor Centres, data from local councils, TripAdvisor etc.

PLEASE NOTE: Change in methodology for the NVS from 2014 – estimates are not directly comparable to previous years. More information on the change to the NVS methodology is available on Tourism Research Australia’s website.
